## Spotlight on Our Small Business Clients

### **Hardscaping, LLC**

**Frankie Pallitta, owner  
Hardscaping, LLC**

Since the beginning there has only been one question in my mind. How can I make the project I'm working on better? Many people have strict budgets and have to make tough decisions. One of my goals is to make those decisions disappear or at least make them much easier. I strive to make my company run as efficiently as possible to keep cost down. I design and build every project. Many of the extras in my work such as: sealing, borders, accents, lighting, mosaics and others is provided at no additional charge or is "at cost" for the customer. The customer and I both benefit from this. You get a superb project and my name is all over it. We are fast but we take our time. No cutting corners here. In fact, I will tell you exactly what to look for in our craftsmanship so you'll know what to expect. This is all part of your contract and industry leading 3 year warranty. I understand how important this decision is and how much it can cost. I am here to be your friend, give you the information you need and answer all of your questions with confidence! When we are finished with your project I guarantee your complete satisfaction. Just don't forget to tell your friends!
